## Building location

The institution is working in a beautifully constructed building which is located at A.B. Road, Morena. Presently, it is the Largest Private School Campus of Morena. The landscaping and ambience of the school campus is such that it gives the feel of a hill station.

The Building is having all modern amenities including sanitation and safe drinking water facilities. It is free from noise, dust & smoke. The building is impressive. The rooms are spacious & open to sunlight. The class rooms are well ventilated. Equipments are full to suit the needs of teaching & learning.

## Principal & teaching staff

Our Principal  
Mrs. Devyani Sharma

For this institution we have arranged a highly qualified and experienced Principal & qualified teaching staff who know about technical stuff of children education & who know how to inculcate the education & knowledge among children. The teaching staff work as a team under the supervision of Principal. There is usually no need for extra tuition except in very rare cases.

## Classes

Classes are from Play Group to XII. Classes are kept deliberately small to provide personal attention to each child; that is why the strength of a class is never more than 35.

Judging by current standards prevailing in the country, Victor School is a school which believes in quality not in quantity.

Curriculum prescribed by the Central Board of Secondary Education, New Delhi is followed and arrangement exists for study of various subjects. Physical Training is provided by the trained instructors who also supervise all modern & traditional games & sports.

## Affiliation

Victor Convent H.S. School is an English medium, co-educational & non-residential School affiliated to the Central Board of Secondary Education, New Delhi.

## Medium

We follow English as the medium of the instruction.

## Computers

Computers have become a part & parcel of life in the present set up of fast moving & progressing world. It is being used by scientists, professionals, Semi-professionals & even by the students all over the world. So keeping this view in mind the school has started IT WIZARD Programme in association with Asia's largest IT training company NIIT LIMITED to provide the best computer education to our students. NIIT provides authenticated certificate every year to the students based on their performance.

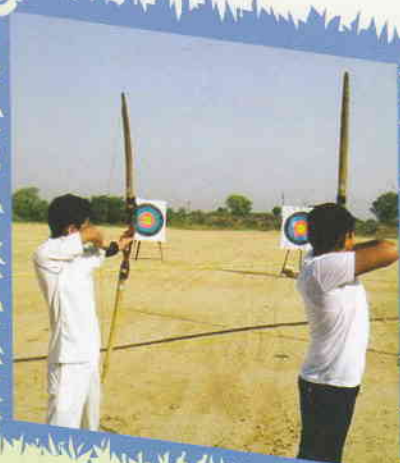

## Games & Sports

At Victor, we have made sports an integral part of school curriculum. Now students not only participate in various sports activities but also their fitness and performance level is monitored continuously. At the end of each academic session, a fitness report card along with academic report card is given to every student based on their demonstrated performance in sports activities.

## Co-curricular Activities

The school also encourages its students to adopt hobbies like Painting, Photography, Music, Dramatics, Crafts & Handicrafts, Physical Education, Drill, Visits, Debates & Discussions, celebration of important days, annual function, etc.

## Smart Class Concept

As we know 21st century is the century of information revolution. To prepare our students to cope with the current technological developments and to introduce dynamism in the teaching methodology, the school has adopted Smart Class concept.

Now along with traditional methods, education will be imparted to the students with the help of visuals and animations. We hope this will not only make the whole process of imparting education interesting but also it will help in building the strong conceptual foundation of the students. Gone are the days when the imparting of education was treated as something boring. Now this process will be interactive. The students, now onwards, will not learn passively but there will be active participation of both teachers and students.

For this purpose, all the classes are fully equipped in the school premises. Each of these classes are equipped with Projectors, SMART Boards & Multimedia devices. With the help of these facilities, education will be imparted to the students through visuals (graphics) and animations. Moreover, this facility will be available to all the students and all the classes (pre-primary to xii) of the school.

We not only hope but also have a firm belief that the students will appreciate the new teaching methodology.

The School has got a rich library with books on various subjects including text books. As the library is the nerve center of an educational institution, every student is encouraged to spend his/her leisure time in making use of the library. The school has arranged a proper library for the children for extra knowledge.

## Library

## Brain Café Science Programme

To fill the gap between theory and practice, Victor, in association with Zee Learn Ltd. has introduced Zee Braincafe Science program for classes 1st to 8th. At Victor, we believe that the teaching methodology should entail more than just making students memorize textbook facts. Our aim is to develop skills that help students engage with the world around them, explore concepts in science, understand underlying principles and develop independent scientific thinking for solving complex, real world problems.

Inspired by the best practices in science education worldwide, Braincafe Science allows students to be active participants in the process of knowledge creation.

## Transportation

School has buses for carrying out institution's children who would like to come by bus. Buses will ply on fixed routes and parents will have to bring their children at fixed stops as will be decided from time to time in consultation with parents.

## Medical Aid

Time to Time school will arrange a doctor to examine the health of children. By this examination we can get the full knowledge of the health of children.

## Parents & Teachers Meeting

Parents' - Teachers' meeting will be held by the institution from time to time.

## Glimpses of School Activities
